

HELICOLL

3/11/2013

TO THE MAKERS OF HELICOLL AND AUSTIN DAY.

My name is JAMES MUIR . I've been dealing with leg wounds caused by vasculitis For 2 years now very painful and very hard to heal.

My doctors, SLAWSON and GUERRA have tried a variety of treatments some work Very slowly and some not at all none of which are the doctors fault.

We would make progress only to have it back fire for one reason or another .

The day that AUSTIN DAY showed up in DR GUERRA'S office with the new product HELICOLL I was skeptical yet ready to try anything at this point.

After the first treatment one week on all my wounds I was amazed and excited by the progress.

The wound on my right ankle had healed more in 7 days then it had in 2 years .

To make a long story short this product works better than anything I've had applied in 2 years.

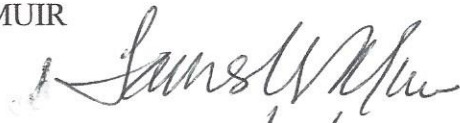

As a patient HELICOLL has my full endorsement and would encourage any one with open wound like mine or any open wound that will not heal to try this product .

Amazing results that I really didn't expect .

Thank you HELICOLL and Thank you AUSTIN MIRACLES DO HAPPEN.

THANK YOU !

JAMES MUIR
